

Chapter 10

Statistics and Probability

Essential Question

Essential Question: How are statistics used to draw inferences about and compare populations?

Lesson 10-1

Measures of Center

Lesson 10-2

Measures of Variability

Lesson 10-3

Mean Absolute Deviation

Lesson 10-4

Compare Populations

Lesson 10-5

Using Sampling to Predict

Lesson 10-6

Probability of Simple Events

Lesson 10-7

Theoretical and Experimental Probability

Lesson 10-8

Probability of Compound Events
